你可以忘记我的存在

一旦注目，注定你将无法漠视

Tired of vulgar and ornate decorations, my essence demonstrates my existence
I don't need to flaunt

Whether in silence or in hustle and bustle, I still adhere to myself

You can forget about my existence

Once you set your eyes on it, you are destined to be unable to ignore it

幻彩

灵感源于水彩画，古语有云“远看色，近看花”，本意是指从远处第一眼看到的是物件的颜色，走近了才能看清它的形态和细节。

DRAGON CHEEPER

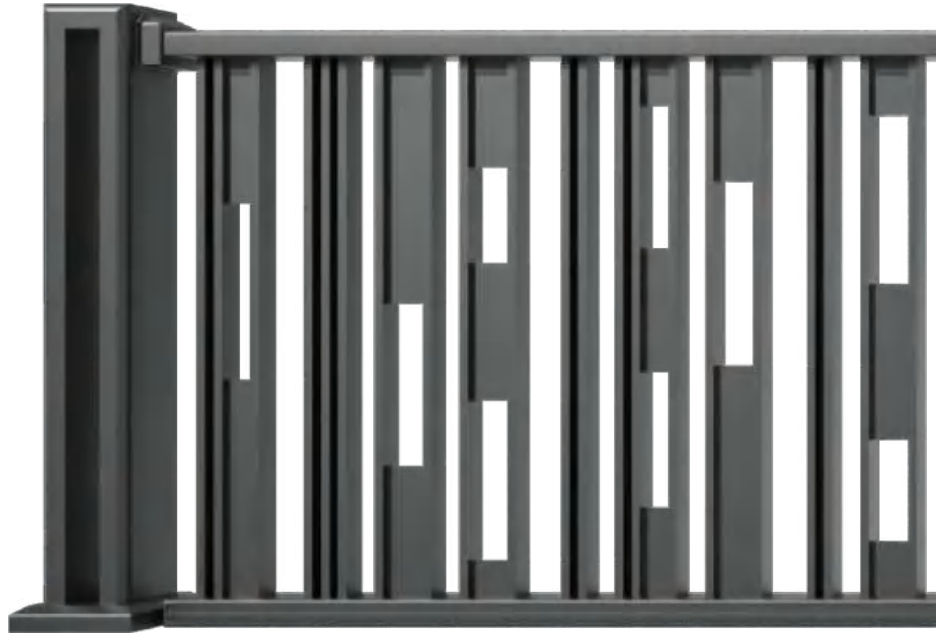

The inspiration comes from watercolor painting, as the ancient saying goes, "Look at the color from a distance, look at the flowers from a distance." 墨韵

灵感源于书法艺术，从古至今，高明的书法家都非常重视留白，在创作中会“以白统黑”，作品的留白大小相宜、疏密相间，从而使得整幅作品虚实相对而又气脉贯通。

INK RHYME

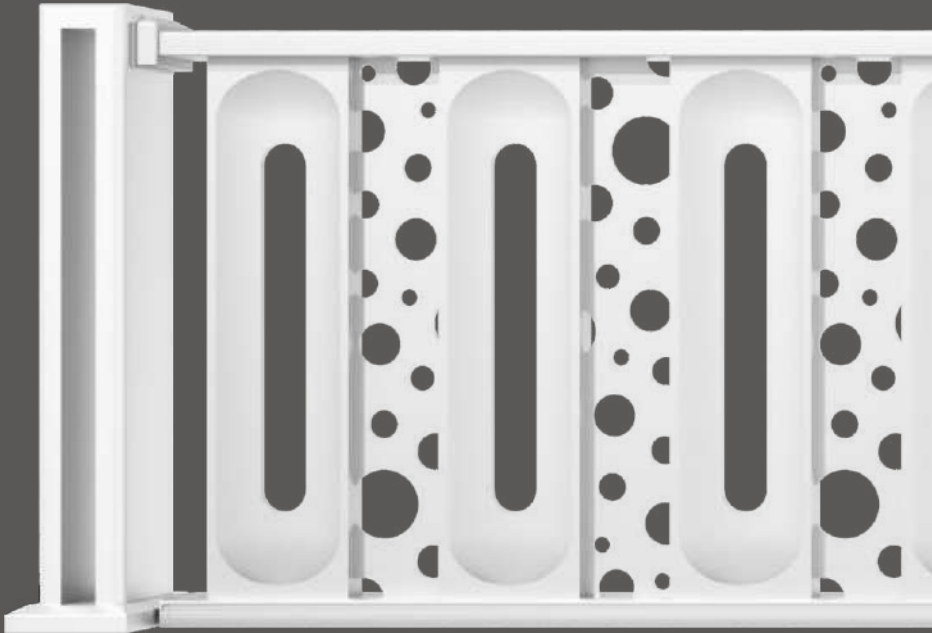

Inspired by the art of calligraphy, from ancient times to the present, brilliant calligrapher have attached great importance to blank space. They will "unify black with white" in their creation. The blank space of the work is appropriate in size and density, which makes the whole work relatively empty and full of vitality.

STARS

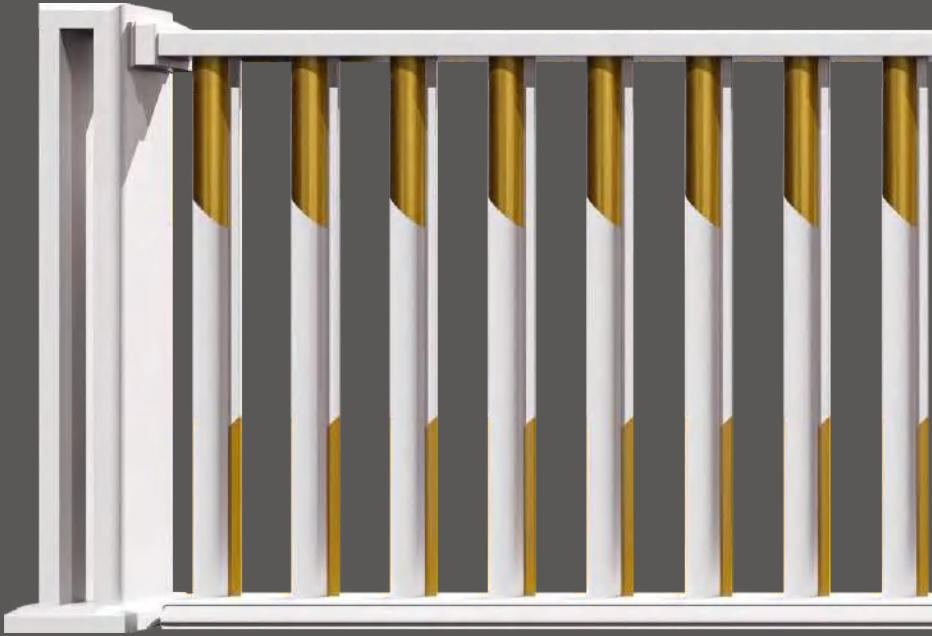

The inspiration comes from the starry sky seen through the dome. Every star may carry a childhood dream, it can be the vast universe, allowing you to roam; It can be a whale in the sea, spitting bubbles and playing with children; It can also be for you and your family to enjoy the flying snow falling outside the house.

LINGLONG

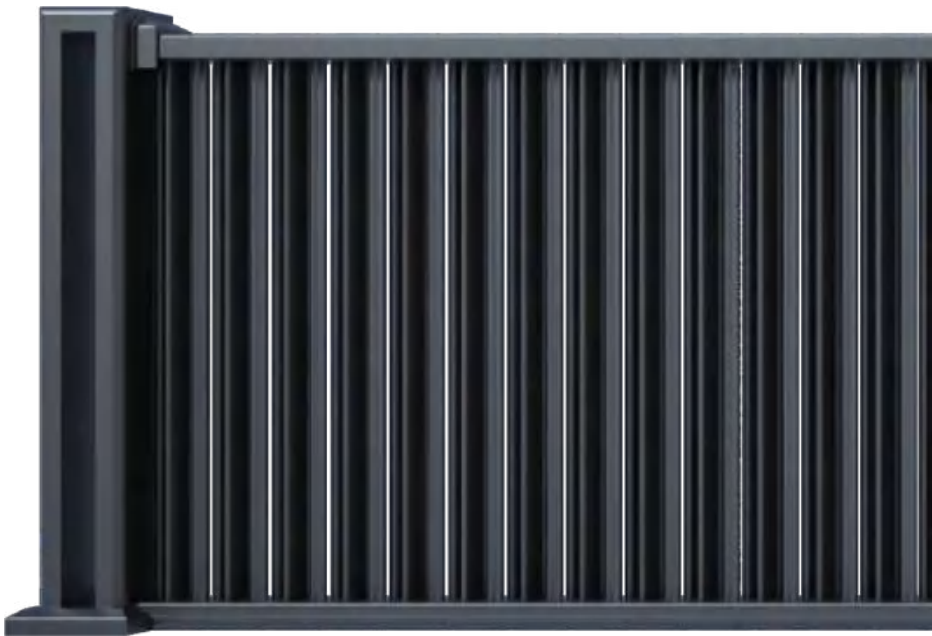

Through the extension and repetition of octahedral geometry, centered on spatial aesthetics, from flat to three-dimensional, the corners of the courtyard wall can also become extraordinary. The design style integrates modern industrial aesthetics and traditional cultural significance, making the spatial style more dynamic while protecting family privacy and safety, making life more comprehensive.

LIKE WATER

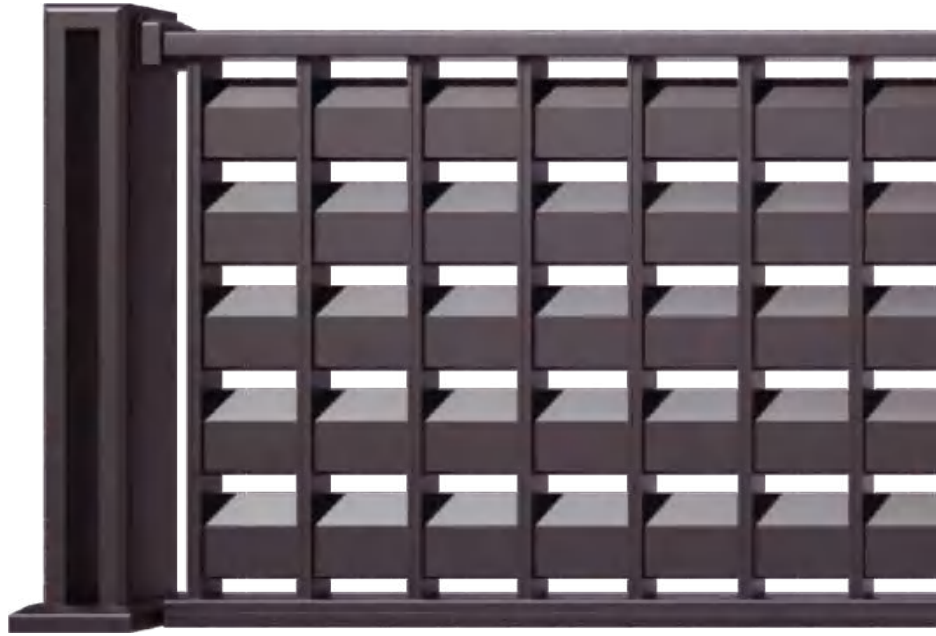

The trickling stream is a gentle emotion, and a calm attitude towards worldly affairs is a realm. The seemingly random and irregular shape has a sense of freedom that is not constrained, bringing unique visual enjoyment and dynamism to the regular space. This ultimate charm constantly enhances the spatial style and also adds vitality to the courtyard.

珑砌

LONGQI

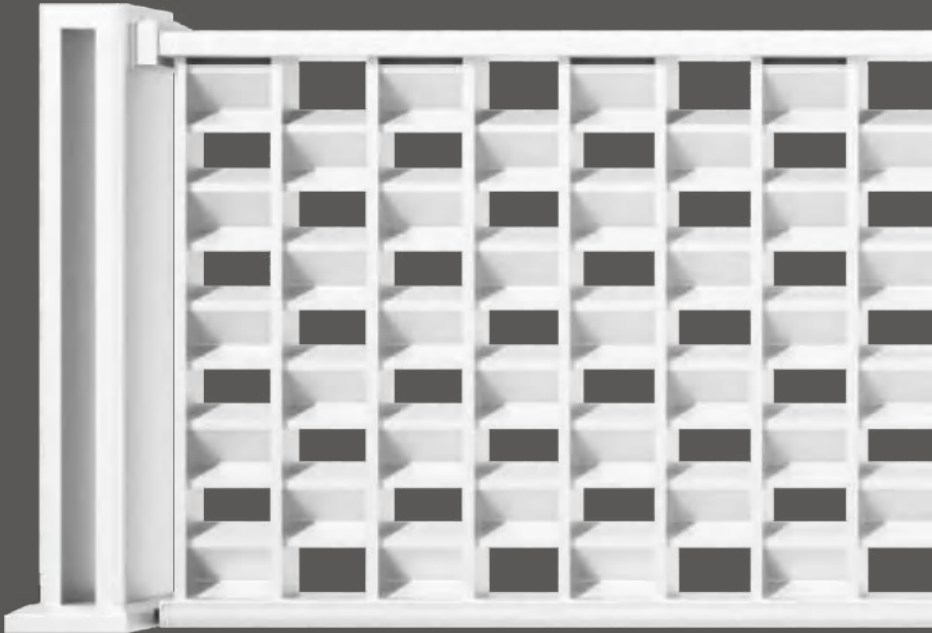

Modular rhomboid aluminum tubes interlock, forming a staggered, pierced screen wall. The multifaceted angles of the rhombi refract light, creating dynamic shifts of light and shadow. By day, it presents a rational geometric order; by night, it transforms into a canvas of luminous patterns. Ideal for modern residential fencing or as artistic spatial dividers, it embodies a compelling visual tension between strength and grace.

DIEZHOU

Geometric planar profiles extend along a continuous angular trajectory, seemingly infinite, forging a powerful sense of depth and a rhythmic industrial aesthetic. The metallic surfaces intensify this industrial character, resembling compressed slices of space-time, thus shaping a highly distinctive, avant-garde icon.

泊年

六边形蜂巢单元如沙漏般错落排布，铝材的冷峻质感与光影折射形成虚实对比，寓意岁月沉淀的静谧感。护栏整体兼具通透性与私密性，为现代都市生活注入“慢时光”的诗意，诠释“栖居即归泊”的深层内涵。

BONIAN

Hexagonal honeycomb units cascade like an hourglass, their staggered arrangement creating a dynamic rhythm. The cool metallic sheen of aluminum interacts with light, forging a play of solidity and void that evokes the tranquility of time's passage. The railing as a whole balances transparency and privacy, infusing modern urban life with the poetry of "leisurely moments." This embodies the profound concept of "dwelling as a return to anchorage."
