自由的现代生活框架

THE FRAMEWORK OF MODERN FREE LIFE

它不再是一个固定的“房间”，而是一套自由的生活语法。以模块化设计，解构传统茶屋的边界。它可以嵌入独立卫生间系统，构建一处功能自足的庭畔静居；亦可让空间彻底敞开，成为与书籍、茶香和日光共处的通透场域。

It is no longer a fixed "room" but a set of free-living grammar. With modular design, it deconstructs the boundaries of traditional tea houses. It can be integrated with an independent bathroom system to create a self-sufficient retreat by the garden, or fully open the space to become a transparent domain where one can dwell with books, tea fragrance, and sunlight.

塞纳 SEINE SERIES

凝练新法式精髓。极简几何线条构筑当代风骨，浪漫的倒角穹顶对话天空。经典拱形门窗，引光入画，谱写浪漫诗章。纯粹黑白交响，碰撞永恒张力。一方栖居艺术，静观流动的法式空间哲思。

Condense the essence of the new French style. Minimalist geometric lines create a contemporary style, while romantic chamfered domes converse with the sky. Classic arched doors and windows, light into the painting, compose romantic poems. Pure black and white symphony, colliding with eternal tension. The art of living in one place, observing the flowing French spatial philosophy.

用经典勾勒浪漫生活

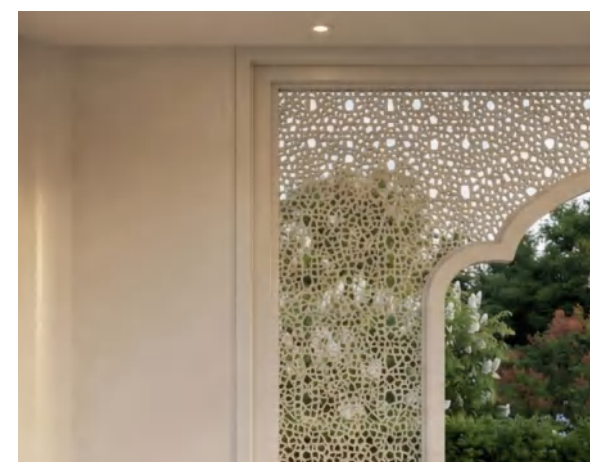

CLASSIC OUTLINES ROMANTIC LIFE

以拱形门窗与弧形转角，重塑法式建筑的美学韵律。优雅弧线并非仅为复古，而是对日常光线的温柔引导，也是视线与脚步的流畅过渡。经典黑白配色在此并非简单对比，而是以纯粹色块烘托空间层次——白色基底让光线驻留，黑色线条沉淀优雅气韵，如同定格的法式电影画面。

Reshaping the aesthetic rhythm of French architecture with arched doors and windows and curved corners. Elegant curves are not just for retro style, but for gentle guidance of daily light and smooth transitions between vision and footsteps. The classic black and white color scheme here is not simply a comparison, but rather a use of pure color blocks to create spatial layers - the white base allows light to linger, and the black lines precipitate an elegant aura, like a frozen French movie screen.

双生穹顶 一种浪漫的两种叙事

ONE ROMANCE TWO STORIES

在塞纳的世界里，连天空的轮廓都由你定义。为您的花园故事选择一个开场，我们为您呈现两种经典的法式穹顶，它们不仅是结构的差异，更是两种生活美学的温柔表达。真正的法式品味，在于懂得如何优雅地选择。

In Seine's world, even the outline of the sky is defined by you. To choose an opening for your garden story, we present two classic French domes that are not only structurally different, but also a gentle expression of two different life aesthetics. The true French taste lies in knowing how to choose elegantly.

Distilling the essence of Han-Tang grandeur into contemporary purity. The Tea Sanctuary reimagines traditional wooden architecture through refined lines, its squared frame embodying millennia of heritage. Classic Han-Tang lattice windows frame views as living paintings, channeling light and shadow to whisper Zen serenity. Within this tranquil alcove, contemplate the passage of time through wood and stone, awakening to the profound wisdom of Eastern living in harmonious simplicity.

肌理之选, 格物修身

TEXTURE SELECTION

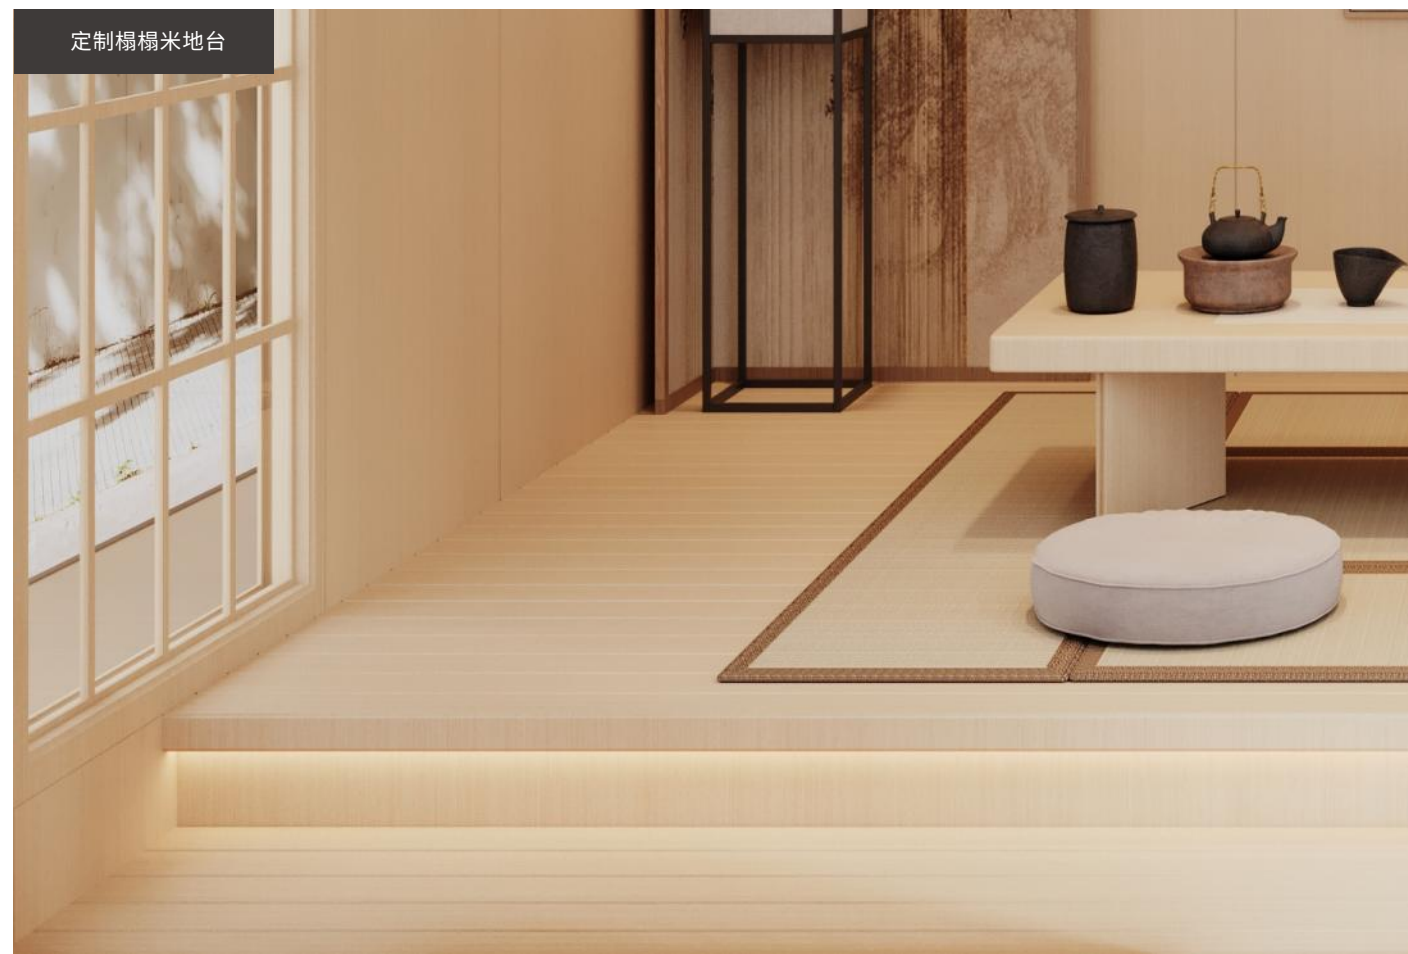

EXPLORE THE ESSENCE AND LAWS

茶坞墙面不仅是围合,更是心境的延伸。我们为您甄选木纹、布纹等多种内墙饰面,这些材质,皆为“隐”而设计。它们不喧哗,却以自身的呼吸感,共同构筑“格物修身”的东方哲思。

The walls of the tea dock are not only a enclosure, but also an extension of one's mood. We have selected various interior wall finishes such as wood grain and cloth grain for you, all of which are designed for "hidden" purposes. They do not make noise, but with their own sense of breathing, they jointly construct the Eastern philosophy of "cultivating oneself through observing objects".

新宋雅筑,重塑东方轮廓

CHINESE ARCHITECTURE RESHAPING THE EASTERN SILHOUETTE

承袭千年殿宇风骨，以极简线条再现中式大宅的恢宏气象。150cm超宽屋檐，是功能与意境的延伸。遮蔽风雨骄阳，于建筑周边创造出独特的“灰色空间”。檐下光影，随日移而变幻，自成一一道行走的风景。同时将传统门廊含蓄地“藏”于建筑体量之内，完成从喧嚣到宁静的从容过渡。让出入皆成仪式。

Inheriting the style of a thousand year old palace, the magnificent atmosphere of a Chinese style mansion is reproduced with minimalist lines. The 150cm ultra wide eaves are an extension of functionality and artistic conception. Covering the wind, rain, and scorching sun, creating a unique 'grey space' around the building. The light and shadow under the eaves change with the sun, forming a walking scenery on its own. At the same time, the traditional porch is subtly "hidden" within the building volume, completing a calm transition from noise to tranquility. Make every entry and exit a ritual.

一檐斜引风雨，一窗卧揽闲情

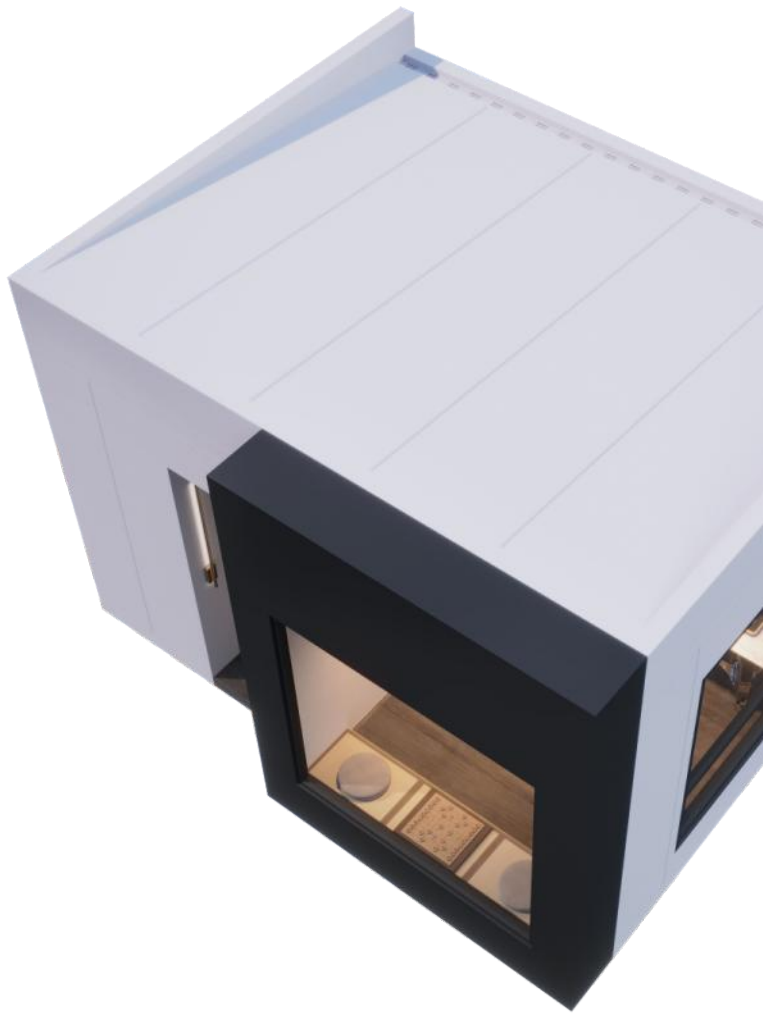

ONE EAVES SLANTING TO INTERCEPT WIND AND RAIN
ONE WINDOW RECLINING TO EMBRACE LEISURE

以Box的几何语言，设计独特的单斜面屋顶，不仅是简约造型的延伸，更是对气候的智慧回应，让建筑在四季更迭中始终从容。

Using the geometric language of Box, designing a unique single-sided sloping roof is not only an extension of minimalist design, but also a smart response to the climate, allowing the building to remain calm throughout the changing seasons.

与之相映的，是低阔舒展的落地飘窗，它模糊了室内与庭园的边界。你可以在此倚坐，静观天光云影，或与友人对弈一局，让身体与思绪一同沉浸于开阔的风景之中。

In contrast, there are low and wide floor to ceiling bay windows that blur the boundary between the interior and the garden. You can sit here, observe the sky and clouds, or play a game of chess with friends, immersing your body and mind in the open scenery together.
